STEALTH TRAINING SITE

ACCESSING YOUR COURSES

1. Upon approval of your course registration, you will receive an email (facsimile below) with how to access the Stealth training site.

2. The first login will require you to set your own password.

CLIENT INSTRUCTIONS FOR STEALTH TRAINING

- You will then be prompted to login (use your registered business email) and click **Next**.

Let's get started!

Email or login name
your.name@company.com

[Forgot login name](#)

Next

- Enter your password and click **Login**.

Password
.....

[Forgot Password?](#)

Login

- Next, you will be prompted for multi-factor authentication (MFA) to verify your account sign on.
- Check your email for the MFA 6-digit code and return to the login screen to enter the MFA code.
- You may select the option to remember your device and skip MFA on subsequent logins.
- Next, you'll be able to establish your skills listing on your home page. Select **Stealth Courseware** and click **Next**. (Note: *Welcome to Percipio content is not available on this site.*)

What skills would you like to build?

Choose a few skills you want to improve, and we'll give you recommendations to get started. Three is usually enough for good results. You can change your selections later.

CLIENT INSTRUCTIONS FOR STEALTH TRAINING

9. Select a **subject area** and click **Next**. You may have more than one option dependent on what courses you registered for online.
10. You may select any course visible on your home page (from the skill areas selected previously) to get started or at the top-left of the home page, click on **Library** menu, then select **Stealth Courseware**.

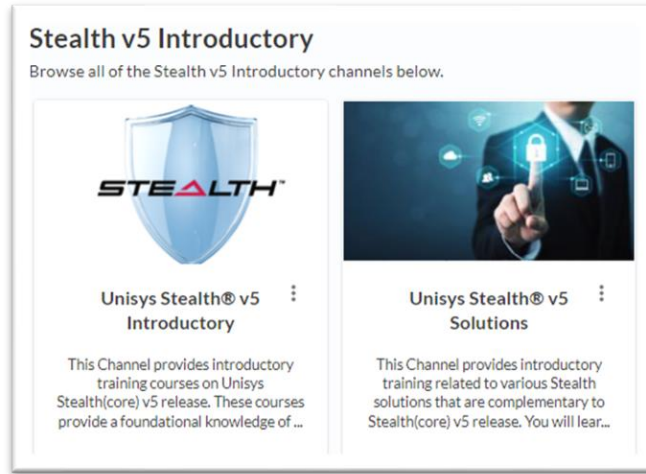

- a. If you registered for Stealth Introductory courses, select **Stealth v5 Introductory**.
- b. If you registered for any Stealth Technical course, select **Stealth v5 Technical Training**.

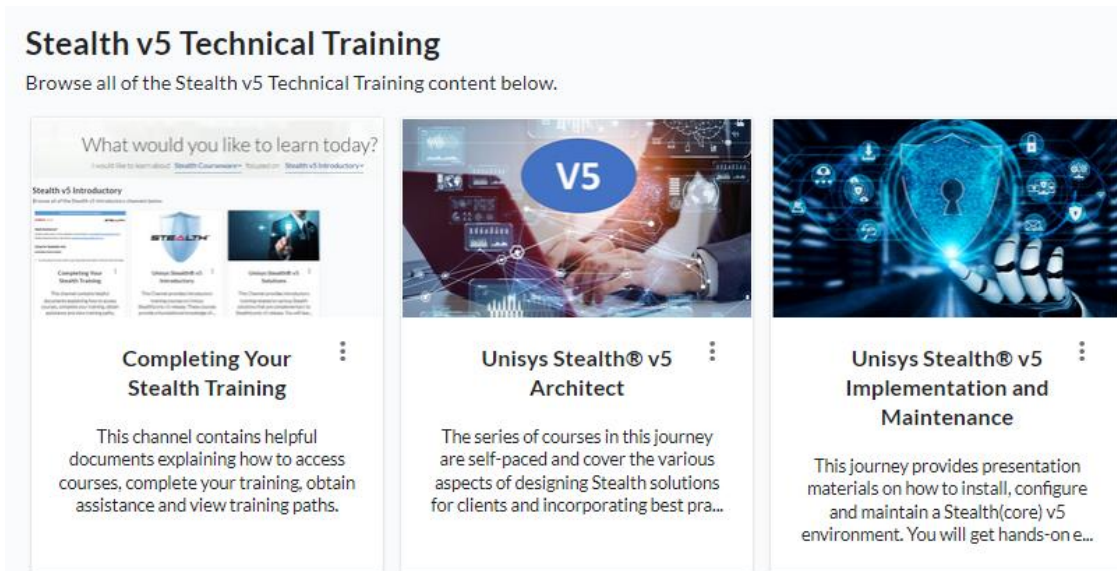

Note: If you did not register for any Stealth Technical course, you will only see the library option for the Stealth v5 Introductory courses.

COMPLETING A COURSE

1. If you selected the **Stealth v5 Introductory** library option, you would see the following course categories:

If you selected the **Stealth v5 Technical Training** library option, you may see any or all of the following courses (dependent on what technical training you are registered for):

2. For *Stealth Introductory* courses, click on the appropriate course category icon.
3. To launch a course, click on the course title or *Watch* link.
4. To complete a course, you must either view the course in its entirety or pass its assessment.
